

VACCINES & FLUORIDE HOLD RISKS

**We will fight for your
democratic rights to...**

- ▶ Childcare access, government benefits and career choice without vaccine requirements.
- ▶ Decide what vaccines and medical procedures are suitable for you and your children, and insist on INFORMED CONSENT!
- ▶ Have independent medical science that is of the highest standard for all vaccine and fluoride policies.
- ▶ Choose complementary/alternative healthcare.
- ▶ Encompass your cultural heritage, embrace your traditional health practices and respect your religious beliefs.
- ▶ Fluoride-free water, GMO-free food and an eco-friendly environment.

**Involuntary Medication Objectors
(Vaccination/Fluoride) PARTY**

VOTE 1 (FREE CHOICE)

Our candidates for the
WA Senate for the Federal
Election, May 18, 2019.

WHAT WILL IMOParty DO FOR YOU?

1 IMOParty WILL LOOK INTO THE GOVERNMENT'S CLAIMS THAT VACCINES ARE SAFE AND EFFECTIVE!

IMOParty will demand double-blind controlled trials using INERT placebos for all vaccines that we use in Australia. These studies have never been done!¹ "Vaccines are classified as biologics and not drugs and this has allowed governments to get around proper testing of vaccines." Judy Wilyman PhD.²

2 IMOParty WILL DEMAND THAT VACCINE INJURIES ARE RECOGNISED AND ACTIONED!

IMOParty will establish independent inquiries into why Australia does not have a vaccine-injury program and why Australia also does not have a MANDATORY reporting system for all vaccine injuries and deaths. The US has paid out over \$4 billion for vaccine-injury and death through the National Vaccine Injury Compensation Program.³

3 IMOParty WILL DEMAND ACCURACY FROM POLITICIANS AND MEDIA ON VACCINE CLAIMS!

IMOParty will establish a completely independent government vaccine advisory board to assess all vaccine science. It will be made up of representatives who have no financial conflicts of interest with the vaccine industry. Until now, politicians and media have been getting their information from studies funded by the vaccine industry itself! Did you know... "A measles vaccine was not introduced in Australia until 1969 and it was not recommended in the national program until 1975 yet from 1950 - 1975 (25 years) measles was not considered a serious threat in developed countries and deaths to measles were extremely rare and dependent upon the socio-economic and constitutional factors of the individual." Judy Wilyman Ph.⁴

DR JUDY WILYMAN
WA Senate candidate for the
Federal Election.

MICHELLE KINSELLA
WA Senate candidate for the
Federal Election

4 IMOParty WILL DEMAND INDEPENDENT SCIENCE ON FLUORIDE!

IMOParty will hold independent inquiries on our fluoride programs and demand change! There are recognised risks to children from the fluoride used in our water, including bone cancer (osteosarcoma), IQ loss, attention-deficit/hyperactivity disorder (ADHD), and many other adverse outcomes.⁵
