

## Time for Truth, Transparency and Accountability in politics

Australia is at breaking point, thanks to successive Liberal/National and Labor/Green Government leadership: massive debt; foreign ownership; high unemployment; and unhealthy, unhappy society; a poisoned environment; looking down the barrel of a future of masking, tracking control, over regulation; continuing erosion of freedom of choice and rights; mass drugging and poverty.

IMOP has a platform to raise awareness and have a voice !  
 By having a political party, IMOP cannot be censored or ignored.
