

ANGELA KETAS

CANDIDATE FOR **PORT STEPHENS**

Angela is both a nurse and a barrister, defending human, environmental and animal rights. She is both passionate and experienced when it comes to issues of Human Rights, Health Choices and savory alternatives to education for our children. Angela is concerned by the introduction, too early in a child's life, of topics such as sexuality and gender. She has spent much of her life standing up for those among us who do not always have a voice. She is a truth seeker and like many of us, has personally felt the devastating results of harsh and draconian measures thrown upon society in recent times.

"It is time for our Government to lead with truth and transparency in all aspects of its operation. Be it infrastructure, health or environment, their actions should no longer be so heavily weighted towards global and corporate agendas. The focus should always be 'what is in the best interests of ordinary Australians', and not an elite minority. Project fear is over; fear will no longer cast the final vote on how we govern our lives."
